

The Cottonwood County Planning Commission was given the task of revising the *Cottonwood County Comprehensive Plan* and met over several years to gather information regarding the framework and guiding principals for the long range planning process. Representatives of different agencies, groups, organizations, City and County officials were given opportunity for input in this process. A number of different issues, needs, and concerns were identified to help formulate the long range planning and future development of Cottonwood County.

We wish to thank all those who participated in the process, your input was greatly appreciated. This document, the *Cottonwood County Comprehensive Plan*, is the fruit of this labor.
